

Residential and Nursing Care for Older People

Home from home residential care is where Pendine Park started back in 1985.

At Gwern Alyn and Hillbury we provide a friendly, warm, relaxed and comfortable atmosphere for older people requiring residential or nursing care or reablement.

We provide residential, convalescence, reablement, respite and day care services as well as a dedicated dementia care unit.

We are passionate about choice and work closely with Pendine Park Independent Living who support people in their own homes.

At Gwern Alyn and Hillbury there is a real sense of community and we treat people as we would wish to be treated ourselves – with dignity, compassion and respect. We believe in promoting independence with support being on-hand when required.

Through our person-centred care planning we work with individuals and families to ensure we really understand what is important for people to be happy and content with us.

Our qualified and experienced team, chosen for their cheerfulness and caring nature, are trained on-site at our award-winning Teaching Care Centre. Which also offers free training to family carers. Physiotherapy is also available on-site and our dedicated staff organise an interesting range of personal and group activities including outings, craftwork, musical events and music, pet and laughter therapy.

Many residents also enjoy art classes with our resident artist and some have even had their own exhibitions. And with many lounges there is space for residents to just relax.

Our very active Family Support Group help us greatly in developing activities and services and help each other and new families by sharing experiences and providing practical advice and support.

Gwern Alyn is an attractive period property, fully modernised, yet retaining its original features and character and Hillbury is a former convent, with light spacious rooms. We even have our own chapel where multi-denominational services and concerts are held.

Both homes are surrounded by seven acres of beautiful, mature gardens with allotments, safe walks and areas for activities or to relax in. The shops, cafés and amenities of Wrexham town centre are easily accessible.
